Re: License No. 35-26824-01
Reply to a Notice of Violation
NRC Inspection Report 030-19083/93-01

To whom it may concern:

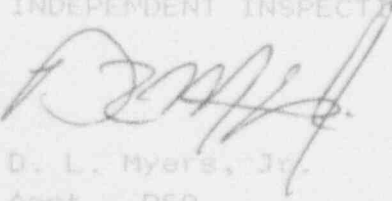

The reason for this violation was because the letters "RQ" (Reportable Quantity) were unknowingly left from our shipping papers. The corrective step we have taken to achieve compliance and avoid further violations is to put above the basic description required for our radioactive material shipping papers the letters "RQ".

Full compliance concerning this matter was achieved on October 23, 1993.

We hope this letter is satisfactory.

Sincerely,

INDEPENDENT INSPECTION CORPORATION
