Dear Mr. Brady:

Thank you for your comments on the Chemetron Site Remediation Plan. I appreciate your prompt review of the document.

In your first comment, you asked if a site burial cell is a viable unrestricted release option. In the Chemetron Site Remediation Plan, the licensee is proposing, for the Harvard Avenue and Bert Avenue sites, disposal cells for wastes having up to the Option 2 limits in our 1981 Branch Technical Position, "Disposal or Onsite Storage of Thorium or Uranium Wastes From Past Operations" (BTP). We consider either Option 1 or Option 2 viable options for unrestricted release, assuming that all of the other conditions in the BTP are met.

I am including your other comments in our comment package to Chemetron.

If you have any questions, please contact me at 301-504-3603.

Sincerely,
