SUBJECT: Arkansas Nuclear One - Unit 1  
Docket No. 50-313  
License No. DPR-51  
Reactor Vessel Overpressurization

Gentlemen:

In a February 23, 1982, letter (1CNA028207) you requested additional information on the ANO-1 overpressure protection system. On May 17, 1982, (1CAN058207) AP&L submitted a partial response. In a March 29, 1982, letter (1CNA038207) AP&L also received an evaluation of the overpressure protection system requesting a response to recommendations in the evaluation.

As these two letters deal with the same subject and should be reviewed together, AP&L proposes to submit a response to both letters by September 30, 1982.

Very truly yours,

John R. Marshall  
Manager, Licensing
