Dear Sir:

Reference to Louisiana Energy Services' proposed uranium enrichment facility to be located near Homer, Louisiana.

This is to request your approval in licensing the above mentioned facility. I am confident any environmental impact from construction and operation of this industry will be minimal, yet the welfare impact upon residents in such a rural and economically depressed area would be of great social benefit.

Furthermore, it is my opinion that the majority of residents in Claiborne Parish are in favor of this facility. The vast majority of the opposition is governed through a sense of political resentment toward specific elected officials, and reflects no reasonable or justifiable cause for refusal.

Thank you for your time, and if I can be of assistance or answer any questions, please feel free to contact me at the above phone numbers.

Yours very truly,

*Galen White*
