Dear Sir:

In response to your Environmental Impact Statement concerning the Construction and Operation of the Claiborne Enrichment Center, my wife and I are looking forward to having the Claiborne Enrichment Center for a neighbor. Truly a neighbor, because our home is only 1.5 miles from where the plant will be located.

We are convinced the plant is safe and will certainly be good for the area, as stated in recent news releases.

Whether many local people are hired directly is not a big issue, since so many will be hired by supporting businesses. Merchants will need more people, schools will need more personnel, construction, utilities, road maintenance, recreation, on and on.

Yes, Claiborne Enrichment Center will be good for this area.

Sincerely,

Harold R. Carpenter, V. Pres.
