Trojan Nuclear Plant
Docket 50-344
License NPF-1

Mr. R. H. Engelken, Director
U. S. Nuclear Regulatory Commission
Region V
Suite 202, Walnut Creek Plaza
1990 N. California Blvd.
Walnut Creek, CA 94596

Dear Mr. Engelken:

This is in response to IE Bulletin 80-21 of November 6, 1980, concerning valve yokes supplied by Malcolm Foundry Company, Inc.

All valve manufacturers supplying safety-related valves for the Trojan Nuclear Plant were contacted concerning their use of valve parts cast by Malcolm Foundry Company, Inc. All manufacturers, except Anchor-Darling, confirmed they had never purchased any cast valve parts from Malcolm Foundry Company, Inc. Anchor-Darling has confirmed that the only valve parts they purchased from Malcolm Foundry Company, Inc. were purchased by their New Jersey facility, whereas valves in use at the Trojan Nuclear Plant originated from their Hayward, California facility.

Therefore, no further investigation is warranted as outlined in the bulletin.

Sincerely,

Bart D. Withers
Vice President
Nuclear
