Gentlemen:

I am writing to express my concern about the two communities of Forest Grove and Cedar Springs in Louisiana. Both communities are located within one half mile of the plant site proposed by Louisiana Energy Services. I understand from reliable sources that the DEIS does not address the concerns of these two communities with regard to their economic development and their social life by having such a plant located so close to them. Please require that Louisiana Energy Services address these issues in their DEIS.

Very truly yours,

Connie Beck
