RE: DEIS on proposed Louisiana Energy Services plant

December 13, 1993

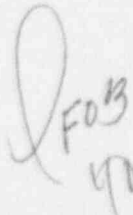

Dear Sir:

I am very concerned that the Draft Environmental Impact Statement (DEIS) regarding Louisiana Energy Services' proposed uranium enrichment plant fails to consider the plant's social and economic impact on the communities of Forest Grove and Center Springs. Remarkably, these two communities, both within one-half mile of the plant site, are never indicated on any of the DEIS's 38 maps or diagrams. Only one reference to these two communities is included in the DEIS's text.

I strongly feel that this DEIS is clearly incomplete and inadequate because it virtually ignores the two communities most affected by the proposed plant. I urge you to insist that the final Environmental Impact Statement include consideration of all the social and economic impacts on these two communities.

Most sincerely,

Dr. Mha Atma Singh Khalsa
