Dear People:

Proposed Louisiana Energy Services Plant

I understand that the Draft Environmental Impact Statement (DEIS) on this project, produced by the Nuclear Regulatory Commission, was released for public review on November 19, 1993.

However, this DEIS does not refer to communities of Forest Grove and Center Springs, located within one-half mile of the plant site. The DEIS fails to consider the proposed plant's social and economic impact on these communities. Therefore, this DEIS is incomplete; and the final Environmental Impact Statement must consider all the social and economic impacts on the two communities.

Thank you for taking my concerns into consideration.

Sincerely yours,

Leah R. Karpen
