Garland, Texas 75245

Dear Enrichment Branch:

I have been informed that the NRC is only allowing citizens to respond to the DEIS within forty-five (45) days.

I own land that would be adjacent to the proposed site for this LES plant.

We as private citizens need more time to respond. We are requesting that you allow us at least ninety (90) days to respond to what we perceive is a very critical issue for such action to be apart of our predominately minority community.

Your acceptance will be most appreciative.

Sincerely,

Dolphus D. Youngblood
