Chief, Enrichment Branch
Division of Fuel Cycle Safety and Safeguards
Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20545

Dear Enrichment Branch:

I have been informed that the NRC is only allowing citizens to respond to the DEIS within forty-five (45) days.

I do own land that would be adjacent to the proposed site for this LES plant.

We as private citizens need more time to respond. We are requesting that you allow us at least ninety (90) days to respond to what we perceive is a very critical issue for such action to be apart of our minority community.

Your acceptance will be most appreciative.

Sincerely,

Stanley Youngblood
