Dear Mr. Berggren:

Enclosed are 35 copies of Topical Report BAW-10151A, "Control Rod Guide Tube Wear Measurement Program," the accepted version of a report formerly denoted as BAW-1623. Included in the report are your Safety Evaluation Report and acceptance letter. No other changes have been made to the body of the report.

We have changed the number designation of this report to conform to our numbering system for Topicals but have left reference to the previous designation, BAW-1623, on the cover and title page so as not to cause undue filing problems.

We understand that this report is now acceptable for referencing by B&W 177-FA plants licensees.

Very truly yours,

J. H. Taylor  
Manager, Licensing
