((Spent Fuel) Nuclear frisco) :. "before any buccestion that a contention should not be entertained. can be acted upon favorably, the proponent of the content ion must be given sane ohanoe to be hoard in response. (( emphas is added) by Staff 11/16/81) double emphas is added $11 / 20,81$ by DEA) Intervenor Down East 1 Ill lance) $0^{\prime \prime}$. See Appeal bound decision Houston Linting ain power (Alleys creek Nuclear Generating Station, Unit 1), ALAB-565, 10 IRC 521 (1979) at 525. If Staff argues ("bol leva") that an opportunity to respond in writing is adequate then it is incur bent upon Staff, Central Line Power, License (With Lain Yankee 4 tonic Power Company and Lain Yankee atomic power Station), or their Counsel, and the board to give reason why fly, Intervenor Down Bast All lance in the perron of $\dot{D}_{\mathrm{av}}$ id Colton⿰lambe have not yet received complete application of Applicant with specific latest proposal, ard why, in, I have not jet received all the other information requested in writing or even acknowledgemeat of receipt of sain e (letter to Laze \& Loris \& message tu Hard), etreters. If Staff argues that an opportunity to be heard has already been $E$ ven, then. I would refer Staff to the oral/aural transcript of the first pre-hearinc conference in Tiscoset, $8 / 11^{\prime} 81$. (emphas is added) ard whers other part ios to those proceed ins were given various assurances, including on site inspection by persons other than Counsel, to. Also, see previous request for said prehearinc conference by II EA when a delay was requested enif crazed at that time. The argument now, as then being now would ave time later and be to the interests of all, including SKLP, KE., and Liveried.
$A=$ an aiditfoml anument to A Specirlc contontion, I vould like to add
Lat it voild obviato the ald it iomal maclear waste that Applicant's proposal would frevitelly macessitato ( (in the fom of non spent-fuel, but other lorlevel additiorel rad loactive equipsent materials (includine, but not 1 imited toi intermed iate pin cangection casponents, spont fuel pool linor arst concreto structure, storace rack, fuel easecbly \& fuel cask-(incsientally, exoneding curiert trarsport apecificat ion inoluding ALARA)s, etc.) which will be more radioact fivo) as well as havine more bulk), and in this connection I would appreciate Docketing ard Service forwand ing a copy of this to Serator Eitchell of Laine, licClure, and for the 14 other cancoittee menters having to consider Serate Lill 1662 es of $11 / 20^{\prime} 81$.
$\Delta^{8}$ a point of information, I would like to inform Staff that the Down Eest Alliance has a computer run in procress and that the presentation of its oonclusions mitht be appropriate at prohearing $I I_{\text {, rather than the more legal }}^{\text {ren }}$ setting of a hearing. I would like to suceest that the old $V$ isitore certer 1. Y. A. P. S. - could be activated for this purpose, but hesitate for fear of it being interpreted as an fapertinenoe. peutronActivation amalya is and Atans in AEriculture, $9 / 63 \& 10 / 62$, would r ke auch a nice contribution to a Moth... Is the K.R.C. equipped to hassle postcards as lecal docksente?

Please rote that the reference to K.A.S.L. in previous corresjorience Was serious. Generally speaking I do appreciate your logic, Jut when doth of us write is terms of interpretation it sects to me that what is neeciec is more comunicat ion.

Although this is an informal adderiur; peracraph two of what is pow three appears to deserve inclusion in the pleading of the Down East Alliance, Whether as Petitioner or Intervenor, and I hope it Fill le treated as such. It is just that the postman has just departed and so you should receive it a day later than my attempt to serve it on the other most interested parties. For that reason, and others previously mentioned, I have not included a whole lunch of carlin or xerox' copies. Any courtesy you can extern in this matter. - ill le appreciated.
