Dear Sir/Madam:

I am writing in regard to the Draft Environmental Impact Statement on the proposed Louisiana Energy Services plant in Homer, LA.

I am very concerned that the DEIS fails to consider the plant's social and economic impact on the communities of Forest Grove and Center Springs. These communities are within one-half mile of the proposed plant site, yet they are not even indicated in any of the DEIS's 38 maps or diagrams.

I believe this DEIS is incomplete and that the final EIS on Louisiana Energy Services's proposal will be incomplete without consideration of the social and economic impact on Forest Grove and Center Springs.

Thank you for your consideration.

Sincerely,

Eric Olsen
