License No. 12-02418-01
License No. 12-02418-02

Gentlemen:

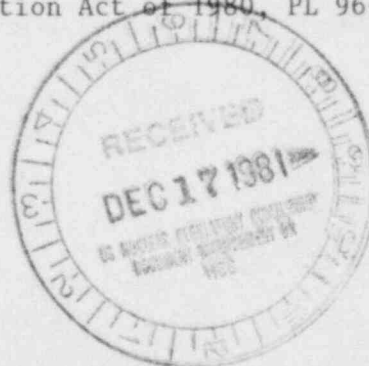

This refers to the routine safety inspection conducted by Dr. W. J. Adam of this office on December 2, 1981, of activities authorized by NRC Byproduct Material Licenses No. 12-02418-01 and No. 12-02418-02 and to the discussion of our findings with Dr. A. Kaluskar at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

In addition to the above areas, the inspector examined actions described in your letter dated October 19, 1977, regarding apparent items of noncompliance found during our September 28, 1977 inspection. We have no further questions regarding these matters.

During the inspection of License No. 12-02418-02, no items of noncompliance were identified; however, for License No. 12-02418-01, certain of your activities appeared to be in noncompliance with NRC requirements, as specified in the enclosed Appendix. A written response, submitted under oath or affirmation, is required.

The responses directed by this letter (and the accompanying Notice) are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
