Gentlemen:

Subject: Docket Nos. 50-206, 50-361 and 50-362  
San Onofre Nuclear Generating Station  
Units 1, 2 and 3

By letter dated March 9, 1982, the March 1981 "Physical Security Plan, San Onofre Units 1, 2 and 3" was submitted to the NRC. Revisions 1, 2, 3, 4 and 5 to the plan were submitted by letters dated July 22, 1982, November 30, 1981, December 30, 1981, January 25, 1982 and June 30, 1982, respectively. As a result of our continuing review and updating of the plan and final modifications made for implementation of security at Unit 3, a number of changes to the plan have been made. Accordingly, pursuant to 10 CFR 50.54(p) enclosed are five copies of Revision 6 of the aforementioned plan which is notification of the changes. The changes are identified with a vertical line in the right hand margin and a number 6. Such changes do not decrease the safeguards effectiveness of the plan.

The enclosure hereto contains "Safeguards Information" as specified in 10 CFR Section 73.21 and should, therefore, be withheld from public disclosure.

Very truly yours,

*KP Baskin*
