Assistant Director for Export/Import
and International Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Sirs:

Enclosed is our application for a license to export tritium to the Rutherford Laboratory in England. This license is similar to our previous export license XB001077 which expired 10 June 1982. Due to the infrequency of requests for laser-fusion targets from the Rutherford Laboratory, we propose that the license be issued for three years.

Sincerely yours,

J. C. Widman, Ph.D.
Chairman, Radiation Safety
Committee
