

October 30, 1992

Note to: Ross Scarano

1. Several weeks ago Jerry Lietch, EPA X, called to discuss a letter his agency had received regarding the disposal of radioactive material at Point Hope. I provided him with information we had on the past activities, and stressed that we were not aware of any information that would lead us to conclude there was any eminent health concern. Attached is the EPA response to the concerned citizen.

2. Attached are comments from Commissioners Curtiss and Remick on SECY-92-348 (Negative Consent) - Letter to Bureau of Land Management in support of land transfer to State of California necessary for licensing low-level radioactive waste disposal facility. The comment period expires November 4, 1992.
