DOCKET 50-155 - LICENSE DPR-6 -
BIG ROCK POINT PLANT -
UNRESOLVED SAFETY ISSUES

The purpose of this letter is to request a date extension in responding to the NRC letter of July 13, 1982 which addressed Unresolved Safety Issues (USI's) for the Big Rock Point Plant. Consumers Power Company expects to respond to the NRC's request for up-to-date-information concerning sixteen (16) USI's applicable to the Big Rock Point Plant by February 15, 1983.

This date extension has been discussed with W T Russell of the Systematic Evaluation Program Branch, and found to be in agreement with the current schedule for issuance of an integrated assessment report for the Big Rock Point Plant.
