Docket No. 50-266-OLA2

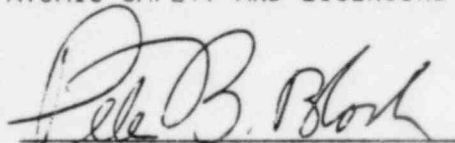

August 20, 1982

MEMORANDUM  
(Concerning Docket Number)

SERVED AUG 23 1982

There are now two amendment proceedings involving Point Beach Nuclear Plant, creating the possibility that the parties or the Commission may face difficulties in keeping accurate, separate files. To ameliorate this problem, all filings in the new proceeding, concerning the replacement of tube bundles in Point Beach Nuclear Plant Unit 1, will please use the following description (already used in the caption for this memorandum) on all filings in this case: Docket No. 50-266-OLA2. The "2" at the end of the docket number is intended to make it easier to distinguish the new proceeding from the former proceeding.
