OFFICE OF STANDARDS DEVELOPMENT

TASK CHANGE FORM

(10/23/79)

Date: 11/8/80

I. TASK IDENTIFICATION

SD Task Leader: E. MERSCHOFF Ext.: 3-5913 Task No.: RS-110-5

Task Title: NUCLEAR POWER PLANT SIMULATORS FOR USE IN OPERATOR TRAINING

DUTS Decision Unit Number: I DUTS Planned Accomplishment Number: 04

II. SCHEDULE CHANGE CATEGORIES (Circle single most appropriate reason)

CATEGORY A - Delays External to SD

1. Delayed input from NRR
2. Delayed input from NMSS
3. Delayed input from ELD
4. Delayed input from
5. Difficulty in establishing Tech. Pos.
6. RRRS Scheduling Delay
7. ACRS Delay
8. Commission scheduling delay
9. Extended Public Comment
10. Special Problems

CATEGORY B - Delays Internal to SD

1. Higher Priority Work
2. Inadequate SD Supervision Follow-up
3. Inadequate Task Leader Follow-up
4. Excessive Time for Management Review
5. Editing Problems
6. Special Problems
7. Difficulty in Establishing Tech. Pos.
8. Inadequate Task Leader Preparation
9. Initial Schedule Too Optimistic

CATEGORY C - Other Changes

1. Schedule Advanced
2. Page 2 of Network Submitted as Greenbook Schedule
3. Task to be Placed "On Hold"
4. Task Rescheduled and Removed from Hold
5. Change Made on Task Network
6. Other

Explanation for Change Category Chosen: TASK LEADER CHANGE DUE TO PERSONNEL TRANSFER

Action Taken to Prevent to Delay: N/A

Action Taken to Minimize Further Delay: N/A

Branch Chief Evaluation: _____

Assistant Director Comments: _____

Working Days Slippage in Completion Date: N/A

Impact on Other SD Tasks: NONE

III. APPROVALS

SD Concurrences:

TL: [Signature]
Date: 8/15/80

Reactor Regulation and the Director of Inspection and Enforcement dated December 6, 1979, which would prohibit Consumers Power Company from performing certain soil-related activities pending approval of amendments to the construction permits Nos. CPPR 81 and CPPR 82 which authorize the construction of two pressurized water reactors in Midland, Michigan. Consumers Power Company had requested a hearing on the Order.

Subsequently, on May 28, 1980 this Atomic Safety and Licensing Board, designated to preside over any hearing in the soil-related proceeding, published in the Federal Register an amended notice of hearing announcing that persons whose interest may be affected by the proceeding may file petitions for leave to intervene on or before June 27, 1980. 45 FR 35949. Several residents of Michigan all residing within 25 miles of the Midland Plant, filed petitions for leave to intervene. By memorandum and order dated July 24, 1980 the board found that those petitioners had standing to intervene and provided for the later filing of contentions within the scope of the proceeding.

Also pending before the board is a Motion for Partial Consolidation dated May 27, 1980 by Consumers Power Company which requests, among other things, that this proceeding on soil-related activities be consolidated with the Midland operating license proceeding to the extent that the operating license proceeding also includes soil-related issues.

Please take notice that pursuant to 10 CFR § 2.751a of the Commission's rules of practice the Atomic Safety and Licensing Board will conduct a special prehearing conference in the Docket 50-329-OM and 50-330-OM beginning at 9:00 a.m., September 10, 1980, at the following location: 75th District Court, Courtroom No. 2, Courthouse, Midland, Michigan 48640.

All persons who have filed petitions for leave to intervene in this proceeding or their respective counsel are directed to attend.

The purpose of the conference is to permit identification of the issues, to rule upon intervention petitions and contentions, to consider consolidation of intervenors, to provide for a schedule for discovery and further activities in the proceeding, to consider Consumer's Motion for Partial Consolidation dated May 27, 1980 and all other matters required to be considered under 10 CFR § 2.751a.

Because consideration of the Motion for Partial Consolidation will affect the Midland operating license proceeding, Dockets 50-329-OL and 50-330-OL, the

board, pursuant to 10 CFR § 2.713(h) and § 2.751(b), directs all intervenors in the operating license proceeding and the Attorney General of Michigan (who has been admitted as a participant under 10 CFR § 2.715(c)) or their respective counsel to attend the conference.

The public is invited to attend the conference but there will be no opportunity for public participation.

The Atomic Safety and Licensing Board.

Ivan W. Smith,

Chairman.

July 24, 1980.

BILLING CODE 7590-01-M

Draft Regulatory Guide; Issuance and Availability

The Nuclear Regulatory Commission has issued for public comment a draft of a new guide planned for its Regulatory Guide Series together with a draft of the associated value/impact statement. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

The draft guide, temporarily identified by its task number, RS 110-5 (which should be mentioned in all correspondence concerning this draft guide), is entitled "Nuclear Power Plant Simulators for Use in Operator Training" and is intended for Division 1, "Power Reactors." This guide is being developed as a result of the lessons learned from the accident at Three Mile Island Nuclear Station and other operating experience. It will describe a method acceptable to the NRC staff for specifying the functional requirements of a simulator used for operator training and for specifying similarity requirements between such a simulator and its reference plant. It is being developed in parallel with a revision to a national standard, ANS 3.5, "Nuclear Power Plant Simulators for Use in Operator Training."

This draft guide and the associated value/impact statement are being issued to involve the public in the early stages of the development of a regulatory position in this area. They have not received complete staff review, have not been reviewed by the NRC Regulatory Requirements Review Committee, and

do not represent an official NRC staff position.

Public comments are being solicited on both drafts, the guide (including any implementation schedule) and the draft value/impact statement. Comments on the draft value/impact statement should be accompanied by supporting data. Comments on both drafts should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch, by

[redacted] given for comments on these drafts, comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of draft guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future draft guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Technical Information and Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland, this 23rd day of July, 1980.

For the Nuclear Regulatory Commission.

Guy A. Arlotto,

Director, Division of Engineering Standards, Office of Standards Development.
