Mr. Bob Colmar
Safety Program Evaluation Branch
Division of Safety Technology
Office of Nuclear Regulatory Research
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Colmar:

Biweekly Report for LER Screening Project

The biweekly report for the period ending July 17, 1981, for the LER Screening Project is enclosed. The attached listing presents those LERs selected as potentially significant first, followed by a listing of the remaining LERs that were reviewed during this 2 week period. A total of 6 LERs out of 49 that were reviewed were selected as potentially significant. A copy of the 6 potentially significant LERs are enclosed.

Please note the following error in the listing for the 2 week period ending June 19, 1981 as transmitted by our letter of June 24, 1981. LER 81-003 for Indian Point 3 selected as potentially significant should have been 81-003 for Ft. Calhoun 1 (Docket Number 50-285). The rest of the information for the Ft. Calhoun 1 81-003 Rev 0 LER is: letter date - 052081; event date -042881; DCS # - 8105270214; potentially significant criteria - 1 and 6.

Sincerely yours,

William R. Casto
Nuclear Safety Information Center
