Dear Mr. Colmar:

Biweekly Report for LER Screening Project

This biweekly report is for the period ending September 11, 1981. Due to other programmatic commitments on the Sequence Coding Program which is coordinated with the screening project, no LERs were screened during this two week period. Our goal is to compensate for the omission by an increased level of coding and screening in the next few periods in order to get back to a "steady-state" condition.

Sincerely yours,

G. T. Mays for
