License STA-422

Telecon to Mr. Burton L. Mobley,  
Supervisor of Environmental Control,  
this date —

Mobley will prepare application  
for source material license  
which I am forwarding this  
date.

He was also notified that the  
ROI contact for him is  
Robert McClintock. Was  
notified to send ROI copy  
of close out surveys and  
contact McClintock upon com-  
pletion of surveys with as much  
lead time as possible.

The necessity of survey  
info regarding underground  
lines, ventilation stacks &  
ducts and records to substantiate  
waste burial with Part 20 were  
discussed.

Rated as very cooperative of  
our needs.

R. Smith

12-7-73

Telecon from Metzger:

Grace sent letter on Dec, 7, 1972, explaining need for certificate of status of materials. (Not in RO: I file). We have certificate.

Secensing goofed in not asking for condition of facility and release requirements.

Jack suggests Grace apply for storage license if have licensable quantities. Attn: J. L. Rouse & Room 308 B - East West Towers. - Rouse briefed on case.

told him I would call Grace as they are willing to cooperate in any way.

R Smith

To: File STA-422

Called J. Metzger on Dec 6,  
1973 Re: W.R. Grace -

Jack will call me Dec 7. He  
agrees we should keep the  
license active but will  
check. Said no problem with  
leaving buried material  
on property. May require  
some marking for recorded  
record.

Dec 6, 1973

Telecon to Mobley & W. R.  
Grace - Baltimore Md. Corp-  
orate Office - 8-301-5971-  
3311 - 727-3900 Ext 363.

Mobley stated they wished  
to decontaminate plant and  
plant site at Pocompton Plains.  
Purpose is to sell completely  
to Nuclonics Incorporated &  
Dick Mandel, President who  
presently has an office on site.  
Stated that F. Davis of DML  
had forwarded him the  
Guide for Release Limits.  
Also they have obtained Paul  
Clevin (former AEC) as a  
consultant for the work. Have  
also had Health Physics  
Services (consultant) provide  
report of required decon  
work at plant for release

The Nuclears Inc. wants possession of decomed plant by Feb. 1, 1974. They are to contact someone to perform decom work next week.

STA-422 expired on Feb 28, 1973. Wobley stated a check for \$80, ~~to~~ was forwarded in Feb for renewal. (No application) He now knows this did not renew license & wanted to know if he should get license. Said I would call him back.

Material has been buried on site - he does not know what is above ground.

Said I would call him on Dec 7.
