Dear Mr. Delaney:

It is our desire to procure and bring in from Canada five pounds of normal uranium dioxide. Our potential supplier has requested a copy of our A. E. C. license, which we can furnish, and an import permit. As we are not sure what is involved in our import permit, or from whom it should be secured, we are seeking your advice on this point. Will you please tell us how to go about securing an import permit, or just what action should be taken in handling this request.

Thanking you for this service, we are

Very truly yours,
