

Chief, Enrichment Branch  
Division of Fuel Cycle Safety and Safeguards  
Office of Nuclear Material Safety and Safeguards  
U. S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Sir:

Reference: (NUREG-1484) L.E.S. URANIUM ENRICHMENT PLANT

NRC allowed only 45 days for citizens to respond to the DE I.S. The period will expire January 16, 1994. This does not allow time to receive the report, study it and then respond; particularly with the Christmas season coming during the 45 days. Therefore, I am requesting a 90 day extension to the response period.

I am hopeful this request will be considered.

Sincerely,

NAME: E. Marie Henderson
