District No. "6"
Claiborne Parish Fire Department, Inc.

P.O. Box 199
Lisbon, La. 71048

January 19, 1994

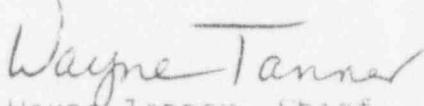

Dear Sir:

As Fire Chief, of the District No. 6, Claiborne Parish Fire Department, serving the proposed L.E.S. minimum enrichment plant, I wanted you to know I agree with the conclusion of the R.C.'S. draft environmental impact statement that the plant can be built and operated safely.

In August 1991, I toured the Oconee Nuclear Plant in South Carolina and met with local emergency management officials. Given the safe record of that plant, I am confident that the Claiborne Plant will not pose any unusual treat in our community, since it will be far less complex than the Oconee Nuclear Plant.

Please license the facility as early as practical.

Sincerely,

Wayne Tanner, Chief
District No. 6, Claiborne Parish
Fire Department.
