COMMENTS:

I generally agree with the Chairman's comments, however, I believe the term "Associated equipment" is adequately defined by the proposed rule. "Control" is defined in the Federal Register Notice p. 45 as the crank-out device by the terms in parenthesis and the crank-out device would include the control cable. In addition, I believe that in Appendix A, item 12, "Agreement States" should be included in addition to other "independent certifying organizations." The attached edit reflects this thought.
