IN RESPONSE REFER  
TO FOIA-82-315

Dear Dr. Coppell:

This is in response to your letter dated July 16, 1982 in which you requested, pursuant to the Freedom of Information Act, records concerning a group VI product manufactured by Alpha-Omega Services, Inc., of Paramount, California. This confirms the information relayed to you during the telephone conversation between you and Linda Robinson on July 27, 1982.

The NRC has not issued a license to this firm and has no records subject to your request.

Under the NRC State Agreements Program, the NRC has entered an agreement with the State of California under which California has assumed regulatory responsibility over byproduct and source material and small quantities of special nuclear material. To learn whether California has issued any license to this firm you may contact Mr. Joseph Ward who is the head of the Radiological Health Service for the California Department of Health. His telephone number is (916)322-2073.

Sincerely,

J. M. Felton, Director  
Division of Rules and Records  
Office of Administration
