Demand for information

Dear Mr. Lieberman:

In answer to your demand for information letter dated December 22, 1993, I submit, under oath, the following:

Item #1

Our last 2 inspections - 1a field audit in 1992 and the 1993 unannounced audit of records, found no violations. All required safety and monitoring equipment is in place and are properly used and calibrated. Having limited financial resources does not affect our ability to operate safely and in compliance with 10 CFR requirements.

Item #2

No purchases of radiographic exposure devices have been made after January 10, 1992.

Since approval of our Plan of Reorganization has been attained, plans are being made to replace current exposure devices with new exposure devices that are in compliance with 10 CFR Part 34.20 requirements.

Item #3

Provisions set forth in our Plan of Reorganization has allowed us to set monies aside, in a bank account, to pay taxes, annual NRC Licensing and inspection fees and other costs as they come due. Regarding future civil penalties, we have every intention of operating safely and in compliance so as no additional penalties will be assessed.

Item #4

Payment of the outstanding civil penalty has been addressed in our Plan of Reorganization and will be paid in full within 90 days.

I, Thomas D. Grashaw, being duly sworn, states that the information provided is true to the best of my knowledge, except that provided upon information and belief, and as to that, I believe it to be true.
