Mr. Carlton R. Stoiber, Director
Office of Nuclear Export
and Import Control
Bureau of Oceans and International
Environmental and Scientific Affairs
U.S. Department of State
Washington, D.C. 20520

Dear Mr. Stoiber:

This is in reference to our November 19, 1981 letter in which we forwarded a number of minor export license requests to the Executive Branch for review and to our more recent letters of January 26, 1982 and February 3, 1982. Enclosed is an additional case for your review. The new case involves the export of a small amount of D2O to India for use in laboratory quantities for research and development purposes. The proposed export raises the same issues addressed in our previous letters.

We would appreciate your response to the issues raised in the earlier letters as they relate to this new minor case and also to the previous cases we forwarded for your review.

Sincerely,

James V. Zimmerman, Assistant Director
Export/Import and International Safeguards
Office of International Programs
