Joan Graham
Rt. 2, Box 258
Homer, LA 71040

Chief, Enrichment Branch
Fuel Cycle Safety, ONMSS
U.S. Nuclear Regulatory Commission
Washington, DC 20555

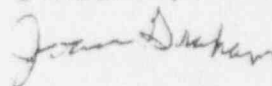

Dear Sir:

I am a life long native of Homer, Louisiana, who is concerned about the welfare for all. I welcome the Uranium Enrichment plant to Claiborne Parish bringing jobs to this area and promoting growth to our town rather than it staying at a stand still.

April '93 I had the opportunity to tour a uranium pellet operated power plant in Waterfront, LA. My findings were pleasing on its cleanliness and safety operating record. Even though, the Enrichment plant is a different step in the overall process. I believe with modern technology, highly trained and skilled workers this plant will operate safely.

I am looking forward to the building of the Enrichment plant.

Sincerely,

Joan Graham
