

70-1359

January 19, 1994

United States Nuclear Regulatory Commission

Attn: Don Joy
Licensing Branch
Division of Fuel Cycle Safety and Safeguards

Washington D. C. 20555

Reference: Docket Number 70-1359; License SNM 1405

Subject: Release information--3030 Callan Road Facility.
Release Package ala NUREG/CR-5849

Enclosed are 6 copies of the Release Survey Report in the format of NUREG/CR-5849. It covers the survey results associated with IRT's licensed facility at 3030 Callan Road in San Diego California. This report includes the information provided to you in our letter of November 30, 1993 plus additional measurements suggested by the NUREG and Region V. One additional survey is to be conducted following the back-filling of the activated neutron source storage tube with concrete. This information will be immediately forwarded to you and Region V to expedite the final release notification. A copy of the enclosed report was express shipped to Region V on January 15, 1994.

Thank you for your cooperation.
