

KANSAS GAS AND ELECTRIC COMPANY

GLENN L. KOESTER
VICE PRESIDENT - NUCLEAR

August 24, 1982

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

KMLNRC 82-238
Re: Docket No. STN 50-482
Subj: Wolf Creek Schedule

Dear Mr. Denton:

This letter is to advise the NRC that the owners of Wolf Creek Generating Station, Unit No. 1 (WCGS) have revised the construction completion date for the plant.

The rate of construction progress and the WCGS construction schedule have been evaluated by KG&E and KG&E has revised the previously scheduled fuel load date from December, 1983, to October 1984. Commercial operation is planned for April, 1985.

We do acknowledge the excellent licensing progress made to date and request that, in spite of this revised schedule change, the NRC continue with its efforts on the Wolf Creek license (including the issuing of the Wolf Creek SER Supplement in September 1982).

I will keep you informed of any Wolf Creek schedule changes as they occur. Should you have any questions about this, do not hesitate to call.

Yours very truly,

Glenn L. Koester
