To Whom it May Concern:

I am writing in regard of a free copy of the Draft Environmental Impact Statement (NUREG-1484) which, pertains to the L.E.S. Uranium Enrichment plant.

Due to the military, I am here at Ft Campbell Ky but Homer, La is my home, and my parents, Robert Youngblood land is joining the property where they are trying to put the plant, I am very much oppose against it, because in studying and traveling, we all know that Uranium is very very unsafe to our health + property.

Thanks,

Mr. Ruth Harris
