SERVED FEB - 3 1994

In the Matter of

(Claiborne Enrichment Center)

Docket No. 70-3070-ML
ASLBP No. 91-641-02-ML
(Special Nuclear
Materials License)
February 3, 1994

NOTICE TO THE PARTIES
REGARDING PROPOSED SITE VISIT

The parties again raise the matter of a site visit of comparable Urenco facilities in Europe by the Licensing Board and representatives of the parties. When first raised in May 1992, we considered the request to be premature because it was presented at an early stage of the proceeding when much factual information was yet to be presented on the proposed plant and its operations. The parties were advised they could again raise the matter when appropriate. "Memorandum and Order (Memorializing Prehearing Conference)," dated May 7, 1992 at 5.

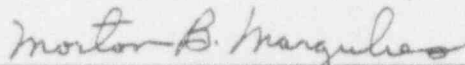

It is reported that the Intervenor objects to the site visit and that it does not have the financial means to pay for such a visit if one were ordered.

D502

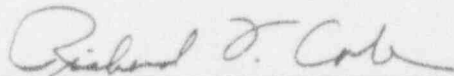

Under these circumstances the better practice for resolving the issue is for the parties in support to formally move the Licensing Board, by written motion, of the need for such a site visit and to have Intervenor respond with its objections.

We will rule on the motion when it is presented.
