Re: Ocean Disposal Records Request and
Supplemental Information (FOIA)

Dear Mr. Felton:

Thank you for your letters of June 7, 1982 and June 8, 1982. I regret it has taken so long to respond to the letters you sent, the information forwarded was quite voluminous.

For matters of completeness, I must request additional information. In the data which had been produced for Attorney Glen Spain and Professor Davis, there was no mention of two firms known to have disposed of radioactive wastes in the ocean. The two firms which were omitted from the records sent to me were California Salvage and U.S. Nuclear.

1.) California Salvage; 709 N. Pacific Avenue, San Pedro, Cal.
DOCKET-27-3

2.) U.S. Nuclear Corp.; 801 Lake St. Burbank, Cal.
DOCKET-27-22

If you could send me periphery information on the two firms listed above, my sincerest appreciations would be extended. In addition to records relating to the above firms, I desire to request additional information. The information I seek is;

3.) One paper copy of WASH-734 "U.S. Sea Disposal Operations."

4.) One microfiche copy of AEC-TR-7308 "A Study of Artificial Radioactivity of the Atmosphere and Especially the Clouds."

In concluding this letter, please know I appreciate the efforts you and your staff have made to make this information available to the public.

Sincerely Yours,

John W. Sullivan
