Mr. James R. Miller, Chief
Special Projects Branch
Division of Project Management
Nuclear Regulatory Commission
Phillips Building
7920 Norfolk Avenue
Bethesda, MD 20014

Dear Mr. Miller:

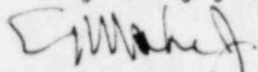

We had previously sent to you copies of numerous EQDPs and test reports to be used in your review of the Westinghouse qualification program (see letter NS-EPR-2600) dated 5/19/82). In that letter three items that we referred to, Items 1, 12, and 14 were inadvertently excluded from that transmittal package. We are, therefore, sending via this letter the following:

1. Fifteen (15) copies of Revision 3 to WCAP-8587 "Equipment Qualification Data Packages" Supplement 1, EQDP-AE-1, "Medium Pump Motors (Outside Containment)" (Non-Proprietary).
2. Twenty-five (25) copies of Revision 1 to proprietary report WCAP 8687 "Equipment Qualification Test Reports" Supplement 2, E04A "Barton Differential Pressure Transmitters: Qualification Group B (Seismic Design Verification Testing)" (Proprietary).
3. Fifteen (15) copies of Revision 4 to WCAP-8587 "Equipment Qualification Data Packages" Supplement 1, EQDP-ESE-6, "Resistance Temperature Detector (RCS Well Mounted) (Seismic and Environmental Testing)" (Proprietary).

Please refer to the application for withholding AW-28 (Non-Proprietary) and the Affidavit included with the NS-EPR-2600 letter.

If you should have any questions, please give Alex Ball (412-373-5792 or George Butterworth (412-373-5761) of my staff a call.

Very truly yours,

E. P. Rahe, Manager
Nuclear Safety Department
