Dear Mr. Denton:

This is to provide information regarding the organization of the departments responsible for radiation protection activities at Commonwealth Edison nuclear generating station which are in operation and under construction. This information is provided in accordance with commitments documented in references (a), (b), (c) and (d).

Enclosed with this letter is the consultant's report of a study of alternative organization structures for Rad/Chem departments at our nuclear generating stations. The report discusses the present organization in detail and provides several specific

1/1 Bos1

H. R. Denton - 2 -July 2, 1982 recommendations for changes. Those recommendations are presently being evaluated by Commonwealth Edison to assess the effect of implementation upon collective bargaining agreements and other factors not considered in the study. A report of our evaluation will be provided in approximately thirty days. Please address questions regarding this matter to this office. One signed original and fifty copies of this letter and the report are provided for your use. Very truly yours, T.R. Tramm T. R. Tramm Nuclear Licensing Administrator 1 m cc: J. G.
