Dear Mr. Kumar:

By letter dated December 30, 1993, you requested that the NRC not renew Power Inspection Inc.'s License No. 37-21428-01, which expires on January 31, 1994. You also requested the NRC advise you on the time you would have to attempt to sell your sources before arranging to store them with another licensee. To answer your question, 10 CFR §30.36(c) requires that you properly dispose of your sources on or before the date the license expires, January 31, 1994.

You should note that the License continues in effect after expiration under 10 CFR §30.36 (e), and that the Licensee must satisfy the provisions of 10 CFR §30.36 in addition to the other requirements in the Commission's regulations and the License. In particular, we also remind you that you must maintain your records required by NRC regulations until we notify you that your License has been terminated.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room. Should you have any questions concerning this letter, we will be pleased to discuss them with you.

Thank you for your cooperation.

Sincerely,

Michael Weber for
