DOCKET NUMBER PR-Misc Notice
PROPOSED RULE (47 FR 24044)

mdv

Secretary
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Sir:

I understand that the NRC has recently issued for public comment some proposals to improve the licensing process for nuclear power plants. I have heard that the comment period extends through July 16, 1982.

I am interested in commenting on the proposal but do not have a copy of the text. Can you send me one? Any 'back-up' material would also be useful.

Thank you very much.

Sincerely yours,

Robert J. Budnitz
