PROPOSED RULE (45 FR 70874)  
SMELTED ALLOYS

3683

Dear Sir:

Regarding the recycling of contaminated metals by radioactive elements - I urge the N.R.C. to take measures to prevent this practice by issuing huge fines against companies found practicing this in the past or in the future. I deplore the risks vs. benefits doctrine in which the consumer is denied the choice - the government does not have the right to decide whether my life and health is put in jeopardy so some company may make a buck. The constitution guarantees the right to life, liberty and the pursuit of happiness. The public is concerned over the vested interests of members of the <sup>past</sup> N.R.C. and its lack of concern over the health and welfare of the public. Your children are the public. Radiated metals may

find their way to your doorstep or car  
running board. When will it stop - ?

I urge you to do all in your power  
to protect the public and your children  
from longrange effects of radiated metals,  
and the attempt to recycle nuclear gar-  
bage onto consumers.

Sincerely,  
A. Woolsey
