MARBLE HILL NUCLEAR GENERATING STATION - UNITS 1 AND 2

Dear Mr. Denton:

Public Service Company of Indiana, Inc. (PSI) hereby informs you of its intention to meet the requirements of Regulatory Guides 1.38 Revision 2 (5/77), 1.39 Revision 2 (9/77), 1.74 (2/74), and 1.88 Revision 2 (10/76) with exceptions as noted below.

Regulatory Guide 1.74 dated 2/74 endorses ANSI N45.2.10-1973. PSI shall meet the requirements of this Regulatory Guide with the following exception: Definitions of terms may be altered from the specific text of ANSI N45.2.10 to more closely fit the requirements of the Quality Assurance Program. In situations where ANSI N45.2.10 terms and definitions conflict with code terms and definitions as defined in NCA-9000 (of the Winter 81 Addenda) of Section III, PSI may use the best of the two terms and definitions to meet the requirements of the Program.

Regulatory Guide 1.88 Revision 2 dated 10/76 endorses ANSI N45.2.9-1974. The exception to ANSI N45.2.9-1974 was accepted per Robert L. Tedesco's letter of June 3, 1980.

PSI intends to reflect these commitments in the next issue of the Marble Hill Project Quality Assurance Manual. If you have any questions, please contact me at your convenience.

Sincerely,

S. W. Shields
