Docket No. 99900271

Mr. Kenneth Ewald, Manager
Nuclear Business Unit
Rosemount Measurement Division
Rosemount Nuclear Instruments, Incorporated
1256 Trapp Road
Eagan, Minnesota 55121-1282

Dear Mr. Ewald:

SUBJECT: ROSEMOUNT REVIEW OF PORTIONS OF DOCUMENTS AND OTHER STATEMENTS
PREVIOUSLY IDENTIFIED TO NRC STAFF AS PROPRIETARY

We have reviewed your letter of December 16, 1993, which provided your request for withholding certain information from inclusion in the public version of an NRC inspection report. Rosemount performed a review in accordance with the provisions of Title 10 of the Code of Federal Regulations, § 2.790, of the specific excerpts and statements that were provided in a letter dated October 29, 1993, from the Nuclear Regulatory Commission (NRC).

The NRC staff does not agree that all of the statements you consider to contain proprietary information should be withheld from public disclosure. Based upon our review of your letter which contained the reasons for requesting withholding and our review of information which has already been made part of the public record, we are providing you with our resolution of this matter. The resolution is provided in the enclosure to this letter. The portions of the excerpts that are highlighted indicate the information which we have determined to be proprietary. The remainder of the statements will be included in the public version of the report. We have also provided our determination as to why the information is not considered proprietary.

If you would like to discuss this matter further, please inform the NRC within 10 days of receipt of this letter. Otherwise, the enclosed information, with the highlighted sections deleted, will be included in an inspection report that will be distributed and released to the public 30 calendar days from the date of this letter.

If you have any questions on this matter, please contact Joe Petrosino at (301) 504-2979 or Greg Cwalina at (301) 504-2984.

Sincerely,

Leif J. Norrholm, Chief
Vendor Inspection Branch
Division of Reactor Inspection
and Licensee Performance
