Dear Mr. Wiedeman:

This is in reply to your letter of June 22, 1982. Our last quarterly meeting of the Medical Isotope Committee at Iowa Lutheran Hospital was on April 20, 1982. Our next scheduled meeting is in July 1982. At this time we are in full compliance with regulations. Regularly scheduled quarterly meetings will be held in the future so that no further corrective action will be necessary.

Sincerely,

Glenn B. Purnell, M.D.
