Subject: Submittal of Additional Payment for Export License

Reference: Letter LD-94-004 from S. A. Toelle (ABB-CE) to R. D. Hauber (NRC), dated January 27, 1994

Dear Mr. Hauber:

In the Reference, Combustion Engineering, Inc. (CE) submitted an application for a license to export Zircaloy fuel rods containing depleted uranium dioxide ceramic pellets to ABB Atom in Sweden. An application fee of \$1,300.00 was enclosed with the Reference.

Upon further review of 10 CFR 170 and after further discussions with Ms. B. L. Wright of your staff, it was confirmed that the application will require appropriate foreign government assurances. Accordingly, a check for an additional \$2,000.00 is enclosed with this letter to cover this higher level of review. We regret the miscommunication regarding the fee payment required for the export license application in the Reference.

If you have any further questions on the application or if we can in some other way facilitate the review process, please do not hesitate to call me or Mr. Mario Robles of my staff at (203) 285-5215.

Very truly yours,

S. A. Toelle
