Secretary of the Commission  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Attention: Docketing and Service Branch

Gentlemen:

On occasion during the course of our business Macro Corporation has need to refer to various of the NRC Regulatory Guides. At the moment we have need to examine Regulatory Guide 1.64, "Quality Assurance Requirements for the Design of Nuclear Power Plants". I feel that our needs will be restricted to guides in division 1 - Power Reactors. Would you please advise me regarding prices and ordering procedures for those items.

Very truly yours,

MACRO CORPORATION
