NS-EPR-2600, 5/19/82

Dear Mr. Shemanski:

Previously, we had transmitted to you copies of our Equipment Qualification Reports to be used by EG&G Idaho during their review. On June 17, 1982, Alex Ball was at the EG&G Idaho facility to meet with Richard Borgen, Skip Stewart, Alan Udy, Quinn Decker and Tom Humphrey. While reviewing the Equipment Qualification Documentation, it was realized that EG&G Idaho did not have the latest revisions to a few of the documents. Those documents are as follows:

ESE-10 Revision 4	E19A Revision 1
E10A Revision 2	ESE-20 Revision 4
ESE-18 Revision 4	E20A Revision 2
E18A Revision 1	E20B Revision 1
ESE-19 Revision 3	HE-3/HE-6 Revision 3
	H03A/H06A Revision 1

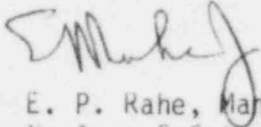

All of the reports listed had previously been sent to the NRC.

By carbon copy of this letter, we are sending one (1) copy of the reports listed above to Mr. Richard A. Borgen of EG&G Idaho so that EG&G Idaho may continue their review of the Westinghouse Equipment Qualification Program utilizing the latest revisions of the test reports and data packages.

T010

We would appreciate a schedule from you of the anticipated review completion of all Westinghouse Equipment Qualification Documentation (WCAP-8587 Methodology, WCAP-8587 Supplement 1 Data Packages and WCAP-8687 Supplement 2 Test Reports). If a meeting or other support is necessary to help with your review, please do not hesitate to contact myself, George Butterworth (412) 373-5761 or Alex Ball (412) 373-5792 of my staff.

Very truly yours,
WESTINGHOUSE ELECTRIC CORPORATION

E. P. Rahe, Manager
Nuclear Safety Department
