Sir:

I am quite concerned with the DEIS on the Louisiana Energy Services Plant. I do not feel the DEIS has adequately considered the social and economic impact of this plant on the communities of Forest Grove and Center Springs. In fact, according to the US Commission on Civil Rights, the Louisiana State Advisory Commission has concluded that there are civil rights violations in the location of Louisiana's chemical plants. Given this information, it is now vitally important that the final EIS consider **ALL** social and economic impacts to these communities.

Sincerely,

Carol Pinsky Blumenthal
