Dept. of Fuel Cycle Safety &

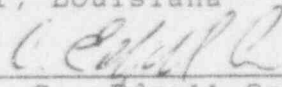

23 Jan. 1994

Reference: Docket No. 70-3070
Louisiana Energy Services, L.P.

Regarding the pending issue of a licence to operate a new Uranium Enrichment facility in Claiborne Parish. I would like to offer my endorsement as a resident of the immediate vicinity.

After a cursory inspection of the facility requirements in conjunction with my own personal experience with Nuclear Power Plants I am in full agreement with Louisiana Energy Service as to the need for this facility along with the construction and subsequent operation of the Claiborne Enrichment Center to be located in Homer, Louisiana
